## **Laundry Parts:-**

We also have a top notch parts department with trained parts specialists to provide the high quality laundry parts, supplies and accessories you need, from the trusted names you already know like Dexter, Whirlpool, Maytag, Continental, Speed Queen, Wascomat, ADC and many others.

## **On-Premise Laundry Machines:-**

Whether you're in the food service industry, the beauty industry or veterinary there are countless businesses that require laundry equipment on site. WorldWide Laundry has been helping these business for years by providing high quality, long lasting on-premise washers, dryers, folders, ironers and ancillaries products.

## **Coin-Operated Vended Laundry Machines:-**

WorldWide Laundry has built hundreds of successful self-service laundries. Whether you're new to the laundry industry or you're a seasoned pro, choosing a distributor partner is one of the most important steps you'll take in your business. WorldWide Laundry provides vended laundry machines and equipment that is durable, reliable and efficient. We provide coin operated vending machines for large and small apartment facilities, senior centers, condos, Co-ops, Spas, military housing barracks, university dorms and essentially any other facilities in need of vended washers and vended dryers.

## Drop-Off Laundries and Cleaners:-

As a specialist at caring for your customer's clothing, you need laundry equipment that provides maximum performance while taking up minimal space. Our washers and dryers fit through a standard 36" doorway, and our energy efficient design can cut your laundry's utility costs by as much as 60%. Auto injection capabilities eliminate the need for adding chemicals manually and reduce chemical overuse and waste.

Flexible programming allows you to adjust your cycles as needed for custom items such as rugs or comforters, add chemical injection when needed, and to operate plus cycles when needed for heavily soiled items. Easy, push button operation allows your employees to operate with little training required!

Dexter washers have extraction speeds of up to 200 G-Force which can dramatically cut your dry times by as much as 40%. This savings will dramatically cut your gas consumption and allow you quicker turnover, reducing your labor costs.
